The Shoulder Doctor  
Johannesburg Surgical Hospital  
Beyers Naude  
Northcliff

**RE: RECOMMENDATION LETTER FOR THE SHOULDER DOCTOR**

I had been seeing my physiotherapist regarding ongoing pain and exercises given to me that were not helping. My Physiotherapist told me they would have someone contact me.

The Monday I received a phone call from Dr Strobos's assistant to make an appointment. The appointment was made for Tuesday, I went for the consultation and was advised surgery was required, the operation was booked for Thursday morning and by Friday afternoon I was discharged from the hospital. I went for my 6 week follow up and would like to say that the service I received from beginning to end was phenomenal, from the nurses to hospital staff, professionals and Dr Strobos.

I have lived in South Africa for forty plus years and have never experienced such a professional and helpful hospital and its staff in that time.

I have and will continue to highly recommend this hospital and its professionals to everyone.

Thank you for your excellent service.

Yours Sincerely,

JAMES GOWANS
